What the JAC³ Edge Can Do for You

The Jackson Area College and Career Connection (JAC³) Early/Middle College is a unique learning pathway unlike any early/middle college in the state! Through this three-year program, you’ll earn:

- Your High School Diploma (from your own district)
- College Credits (up to an Associate Degree in Applied Science)
- Industry Credentials and Certification
- Opportunity for Full-Time Employment Upon Graduation

All while remaining enrolled at your high school…and at NO COST to the students or families. A savings equal to thousands of dollars!

JAC³ is open to students entering his/her junior year of high school who meet academic eligibility requirements, and have demonstrated an interest in pursuing a career in the available Career Center program options. Each student is paired with a local sponsoring business, which provides tuition, on-the-job career training, and incredible opportunities (like paid internships and apprenticeships) upon graduation!

In JAC³, you’ll be continuously engaged, dividing time between academic work (at local high school and/or local college) and training at the Career Center and with the sponsoring employer. JAC³ students still attend their local high school for many classes, can take part in sports and extracurriculars, and will participate in commencement and other year-end celebrations with their graduating class.

You’ll be positioned for success from Day 1. With continuous administrator and teacher support, students still need to bring motivation and a great attitude to the program to ensure completion. Students will be academically and professionally guided each step of the way, and graduates will be exceptionally prepared on the best route to FAST success!
